

The logo for 'the DACUM connection' features the text 'the' in a small, lowercase, sans-serif font above 'DACUM' in a large, bold, uppercase, sans-serif font, and 'connection' in a medium-sized, lowercase, sans-serif font below it. The text is centered within a white oval shape. This oval is superimposed on a black background that consists of two thick horizontal bars extending to the left and right edges of the page, with the oval cutting through the center of these bars.

DACUM Research Chart Bank

A LARGE COLLECTION of over 275 DACUM research charts covering a wide range of occupations has been collected and catalogued. These charts, all developed either by the Center on Education and Training for Employment (CETE) staff or by persons we have trained, represent applied curriculum research of the highest quality.

This service is offered to assist curriculum developers and others who wish to develop either a competency-based education or performance-based training program, but for whatever reason, cannot immediately conduct a local DACUM workshop of their own. High-quality DACUM charts imported from elsewhere can provide valuable start-up information and/or serve as a basis for conducting a modified DACUM workshop. However, it is highly recommended that any chart purchased from CETE or elsewhere be locally verified (validated) via a mailed or electronic task verification process or appropriate advisory committee review.

The Center wishes to make it emphatically clear that while offering its collection of high-quality DACUM charts at a minimal fee, it in no way wishes to discourage schools, community colleges, technical institutes, government agencies, and businesses and industries from conducting their own up-to-date locally relevant job or occupational analyses. The quality of a current, locally conducted analysis developed by a *trained* facilitator and a qualified panel of 5-12 expert workers, *cannot* be matched by a chart developed elsewhere.

A listing of the over 350 available DACUM charts is presented on the following pages and on our website at www.dacumohiostate.com. **Individual charts can be purchased at \$30 per copy (U.S. funds).** Charts will be sent electronically at no shipping charge and checks should be made payable to OSU/CETE. Please contact Debbie Weaver at weaver.22@osu.edu to order charts.

For information about DACUM occupational analysis workshops, DACUM Facilitator Training Institutes, and/or Systematic Curriculum and Instructional Development (SCID) Workshops, write, fax, call, or e-mail:
